MINDFUL COMPLIANCE

START WITH THE RIGHT MINDSET

SERVICES GUIDE

WWW.MINDFULCOMPLIANCE.COM

WHO WE ARE

Based in Texas, we have experience in particularly difficult regulatory environments. Mindful Compliance knows what regulators are looking for in evolving and emerging industries.

Your operations and goals are unique, and we are here to help you accomplish them in your day-to-day activities - so you can benefit in the long-term.

We want to set you up for success, so we create personalized contracts that include the services you need to meet your objectives. Any combination of listed, and many unlisted, services can be incorporated and adjusted during project planning and contract terms creation to cater to your company's needs.

Mindful Compliance is your comprehensive, compliant start-up consulting provider. Our mission is to get you started with the right mindset and on the road to lasting success. We achieve this through collaboratively built-in efficiencies that will keep you compliant and operational, with plenty of room for adjustment and expansion.

WHY HIRE A CONSULTANT?

There are numerous benefits to hiring us as your compliance consultant. We've outlined a few of the advantages below.

CREATE EFFICIENCIES QUICKLY

Emerging and evolving industries, like agriculture, cannabis, and psychedelics, need a quick start-up time. With little time to waste, it can be best to bring in an expert to get you on the right track in reduced time.

LITTLE TO NO ONBOARDING

A consultant requires little to no onboarding. Instead, we review your current activities, review the information collected or provided, then create reviewable information for you and your management.

PERSPECTIVE

Start-ups can take a lot of your attention and keep you too busy to see new or ongoing issues. Bringing in a consultant can help identify, mitigate, and eliminate issues so you can get back to your major priorities.

FULLY CUSTOMIZED

Each contract is tailored to ensure the creation of your compliance program. Each activity done independently or on a routine basis is made specifically to fit your team's abilities, responsibilities, needs, and any gaps in knowledge.

MEET THE TEAM

Every company has a story to tell, and we have one that shows through our team's skills and experience.

After our years of work through many industries, we've built a team that has no limits. We've been part of building new companies, are stellar sales operators and trainers, have managed teams from small to large, and so much more.

HOW IT WORKS

BOOK A CALL

Let's talk about your company's needs. We will pre-plan and review any activities that can enhance your operations by efficiently incorporating compliance.

BUILD YOUR PROJECT'S SCOPE

We will go in-depth on what your project needs to succeed the long-term. Your company's variables like staff, equipment, budget, and more are taken into consideration for your scope development

CREATe YOUR CONTRACT

After we construct your project's personalized scope and activities, we will create your company's customized contract.

LET'S GET TO WORK!

With your contract in place, we will begin our collaborative efforts in tackling your projects in evolving and emerging industries - including agriculture, cannabis, and psychedelics.
